

Employer Name: Economists Incorporated

Position Title: Research Associate

Location - City, State: San Francisco, CA

Industry: Management Consulting

Job Description: Economists Incorporated (EI) is a leading economic consulting firm with offices located in Washington, DC, San Francisco, and Tallahassee, FL. EI is hiring Research Associates to start in the early spring/summer of 2018 in the San Francisco office or in the summer of 2018 in the Washington, DC office. The Research Associate position is typically for two years, although occasionally potential for additional advancement arises.

EI Research Associates have the opportunity to work directly with Ph.D. economists from top universities on a variety of high-profile cases concerning antitrust litigation, mergers and acquisitions, government regulation of the private sector, and general commercial litigation. Recent firm projects include examining the antitrust implications of the vertical integration of health insurers and healthcare providers, determining potential competitive effects of mergers between utility companies, evaluating class certification issues in consumer goods litigation, assessing damages in contract disputes, designing an incentive structure to promote use of renewable energy sources, designing a bidding strategy for participation in an electromagnetic spectrum auction, and assessing the importance of copyright industries (music, motion pictures, publishing, software, etc.) to the U.S. economy. Research Associates gain broad industry exposure and marketable skills in case management, data analysis, and research through responsibilities such as those detailed below:

Case Management

- Act as a lead Research Associate on one to five cases at a time
- Manage teams of Research Associates
- Organize case research and data analysis
- Work closely with economists on a regular basis

Data Analysis

- Work with complex databases and raw client data in Stata, Access, and other programs
- Utilize tools such as Microsoft Excel and ArcGIS for graphical and statistical analysis
- Analyze industry participants and characteristics affecting market competition
- Calculate cost and damages estimates

Research

- Consult with clients and private sources to obtain necessary data
- Investigate industries and companies using online and government resources
- Review litigation and case documents

EI Research Associates are generally outstanding graduates from highly ranked colleges and universities with bachelor degrees in economics, finance, mathematics, statistics, computer science, or a related field. Prospective candidates must possess a strong academic record, excellent analytical and quantitative skills, and the ability to work effectively in teams. Experience with Microsoft Excel and one or more data analysis programs (such as Stata, SAS, or

R) is required. EI Research Associates typically go on to pursue graduate degrees in economics, law, and business at leading universities or continue careers in business analytics and consulting.

Duration: Permanent
