

Employer Name: Federal Communications Commission (FCC)

Position Title: Economics Research Assistant

Location: Washington, District of Columbia, United States

Industry: Government

Job Description:

Interviews for this and all other government jobs will be informational only.

Economics Research Assistant

The Federal Communications Commission is seeking detail-oriented candidates with a microeconomics or industrial organization economics background for positions as economics research assistants.

The Commission's responsibilities include regulation of radio and television stations, shared jurisdiction over cable television service, regulation of commercial mobile radio services (e.g., mobile voice and data services) and public safety services at the state and local level, licensing communications satellites, and regulation of interstate wireline telecommunications services.

DESIRED SKILLS

The ideal candidate will enjoy working in multi-disciplinary teams to integrate technology management and competition principles with the close study of technological, economic, and marketplace developments relevant to the wireline and wireless communications industry and the electronic media sector.

The candidate will have an interest in data-driven policy work, as well as possess excellent programming skills (e.g., STATA, SAS, R, GIS software) and good word processing and spreadsheet skills.

(A degree in economics is not required, provided the candidate has relevant course work in economics and statistics; a demonstrated interest in public policy analysis is also useful.)

RESPONSIBILITIES

Working with senior economists and other bureau/office staff, the incumbent of this position will assist with performing complex studies, investigations, and other special projects in the analysis and interpretation of statistical and economic data. New college graduates begin at the GS-5 or GS-7 salary level, depending on qualifications. Candidates must be US citizens. Further information about the Federal Communications Commission is available at www.fcc.gov.
