

Employer Name: Weill Cornell Medicine

Position Title: Research Technician, Research Assistant, and Clinical Research Assistant

Location: New York City, New York

Industry: Healthcare Services

Job Description

Weill Cornell Medicine is seeking talented candidates with prior research/lab experience to support the cutting-edge biomedical research that takes place every day at our institution. Our internationally renowned scientists conduct bench-to-bedside research targeting some of the most formidable health challenges of the 21st century, including cancer, cardiovascular disease, metabolic diseases, neurodegenerative diseases such as Parkinson's and Alzheimer's, diseases affecting children, and infectious diseases, especially those with significant impact on the developing world.

We have Research Technician, Research Assistant, and Clinical Research Assistant roles available in a range of departments and disciplines. *When applying, please mention which position(s) you are interested in. One cover letter is sufficient.*

Duration: Permanent

Job Functions: Research

Employer Description

Weill Cornell Medical College recently united under a new identity, Weill Cornell Medicine, to represent the breadth and depth of everything our employees do best: world-class patient care, cutting-edge research, and top-ranked education. We are so much more than a medical school, and this name is a reflection of our exciting growth over many years. At Weill Cornell Medicine, we work together to treat each individual, not just their conditions or illnesses, as we strive to deliver the finest possible care for our patients – the center of everything we do.

Care

Clinical services are at the heart of our mission. Weill Cornell Medicine has primary and specialty care practices located throughout New York City, and our faculty care for patients at NewYork-Presbyterian Hospital/Weill Cornell Medical Center, NewYork-Presbyterian/Lower Manhattan Hospital, and NewYork-Presbyterian/Queens. Learn more about our clinical services.

Discover

As we care for patients in our medical practices today, our internationally-renowned scientists are conducting cutting-edge biomedical research seeking the treatments of tomorrow. Weill Cornell Medicine has a variety of research centers and institutes targeting some of the most formidable health challenges of the 21st century, including cancer, cardiovascular disease, and Alzheimer's Disease. Learn more about our research efforts.

Teach

Weill Cornell Medical College and the Weill Cornell Graduate School of Medical Sciences are educating the next generation of healthcare leaders. Our innovative curriculums, dedicated faculty, and network of partner institutions provide a unique environment for our students to explore their respective fields. Learn more about the Medical School and Graduate School.
