

Employer Name: Northeastern University, Graduate Programs
Position Title: MS in Accounting + MBA designed for Liberal Arts Majors
Location: Boston, MA
Industry: Higher Education

Job Description:

The Selective Liberal Arts Consortium will hold its DC Recruiting Day in Washington, DC on Monday, January 6, 2020. Please be aware that travel is required to participate in this event, and interviews will take place on that date and at that location only. You will be notified by November 22nd if you have been selected to interview.

Please ensure that you have completed the work authorization status in your Handshake student profile as that will help you determine how closely you meet the employer's job/internship preferences.

Please note this is an informational interview.

Position yourself for a career in business with the MS in Accounting + MBA dual degree program at Northeastern University's D'Amore-McKim School of Business. This program is designed to prepare non-accounting majors for the CPA and to kick-start their accounting career. We offer an accelerated 15-month curriculum, including a 3 month paid internship at a global accounting firm like Deloitte, EY, PwC, KPMG and BDO. Our graduates have experienced a 100% job placement rate over the past 4 years.

Sign up for a video interview to learn more!
Or call our office at (617) 373-3244.

Application Deadlines:

11/15 (international + domestic)
2/1 (domestic)
3/15 (domestic)

Contact: Cassidy Dennison

Duration: Permanent

Job Function: Accounting, Consulting, Data & Analytics

Employer Description:

Advancing a new model of higher education that moves beyond the traditional boundaries of place, Northeastern is developing a system of regional campuses in selected cities. The first, in Charlotte, North Carolina, launched in 2011. Northeastern opened a second graduate campus in Seattle, Washington, in 2013, a third in Silicon Valley in 2015, and is opening its Toronto campus this year. These academic hubs offer graduate degrees aligned with their regions' educational, workforce, and economic development needs, including programs in emerging fields, such as cybersecurity and health informatics. The courses are offered in flexible hybrid and online formats to meet the needs of working professionals. The regional campuses also serve as platforms for expanded research and co-op partnerships between the university and industry, government, and academia.

Allowed School Years: Freshman, Sophomore, Junior, Senior, Alumni, Graduating May 2017 – May 2023

Allowed Major(s): All majors allowed

Work Authorization: US work authorization is required
